

# BETTERWORLD CAMEROON

## FONDATION BIEN ETRE

### BI-WEEKLY REPORT FROM 24TH OCTOBER TO 4TH NOVEMBER 2011

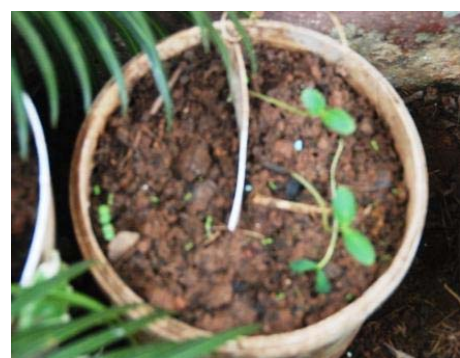

Within these two weeks, the following activities were programmed and carried out:

- Wrote and submitted a project proposal to GIZ for them to provide us a stand for publicity at National Trade Fair, 'Promote 2011'.
- Attended interview at Ministry of Youth Affairs (MINJEUN) with respect to a project proposal submitted on the 3<sup>rd</sup> October 2011 regarding the carrying out of studies and collecting data & statistics on the state of unemployed youths in Cameroon.
- Editorial meeting to discuss on how the next newsletters will look like. It was agreed that articles should be short and should contain more pictures and less texts. The layout design has been done already and articles are coming in.

#### *Brainstorming sessions*

- A number of meetings and brainstorm sessions to commence on the new way forward for e-classes and Permaculture.

#### *Nursery of vegetables and spices to start up the Permaculture demo site at the BWC head office*

- Two new volunteers (Monaji Cementine Mengie from Bernard Fonlon Research Centre and Nguepdjop Glwadys from Institut Siantu Supérieur), join our BWC family. Their roles were defined as officers in charge of Children Education, EE in schools for Clementine and Manager Open World Café/ e-Classroom/Restaurant for Glwadys.
- We finished with the BWC vision and mission, and started harmonizing and updating information on all summer workcamp documents in preparation for next workcamp.
- We equally responded to important correspondences from partners, friends of BWC and from other organizations seeking for partnership and collaborative efforts.

- Dutch Embassy folding up activities in Cameroon has donated its used computers and office stationery in support of Better World Environmental Education Programme

***ITC equipment and office stationery donated by the Dutch Embassy in Cameroon to Better World Cameroon***

***Progress:***

- The new e-classroom space was cleaned and set-up with 04 computers, printers, tables, chairs and office materials. Enabling Support Foundation US, working with us on Linking Agriculture with Education has already come up with project list called **e-teach Cameroon** & we are set to start with three schools namely Basic Education Foundation for the Underprivileged, Posterity Academy and Princeway Nursery and Primary School that have already signed up for the e education programme. (See letters of engagement attached hereto)
- Regarding Permaculture, a wide range of seeds was nursed to start up with the Permaculture demonstration site at the BWC Head Office premises (pictures above). These seeds included *Moringa oleifera*, Coriander, Black Beauty Zucchini Summer Squash, Grey Zucchini (Tender Grey) Summer Squash, Marketmore Cucumber, Abraham Lincoln Tomato, Yellow Brandywine Tomato, Sugar Cherry Currant Tomato, Connecticut Field Pumpkin and Green Zebra Tomato

***Preparation and nursing of Moringa oleifera seeds***

***Recommendations:***

- 80% of all activities programmed were carried out. Nevertheless, we were unable to carry certain activities like regeneration of Ndanifor garden and WASH because of poor weather conditions. These activities have been reprogrammed after the rainy session.
- Programme fewer activities on a scale of preference for efficient results.

*Atabe Senge Laura*

**VISION IN ACTION**
